The ancestors of Jefferson Davis were of pure English stock, but so long resident in America that the type had become thoroughly southern American. On both sides they served in the war for American independence, his father, Samuel Davis, winning some distluction in the mounted troops of Georgia. Of his two sons, Jefferson early be-but Mr. Foote's majority for governor was came a soldier, while Joseph, a man of talent, scarcely, if at all, inferior, gained a local success as lawyer and idanter in Mississippi. Soon after the birth of Jefferson, Samuel Davis removed to Mississippi, locating near Woodville, in Wilkinson county. The sons there acquired an unusually good English education for the time, and at an early age Jefferson entered Transylvania college, Kentucky. In 1824, however, President Monroe appointed him a cadet at West Point, whence once entered on active duty, though for some time commissioned only us a brevet second lieutenant. Promotion was very slow in those peaceful times, but he soon won his full commission, and in the next three years demonstrated his organizing capacity, both as in-fantry and staff officer on the northwestern

Early in ISB Lieut, Davis was transferred from his place in Company B, First United States lufantry, and in recognition of his services in the Black Hawk war was promoted to a first lieutenancy in the First United States dragoons, of which command he was soon made adjutant. In this position he made a very brilliant record, not only as an organizer and efficient administrator in garrisou life, but in several active campaigns against the Comanches, Pawnees and other Indians. And it is at this stage of his career that active, one might say acrid, criticism first concerns itself with Jefferson Davis. Those writers who persist in attributing the downfall of the Southern Confederacy to President Davis allege that thus early he exhibited the same faults and virtues which marked his administration in greater and reater degree with each successive increase Can refer to buildings successfully of rank and power. A most nabappy instance is thus set forth by Gen.

The messure of the dissert, instant of thing rough struggle against the inevitable; every violation was barren, every defeat irremediable. As the ship of state sank deeper in the vortex, mutual recriminations naturally multiplied.

Gas Workers' Demands. issippi soon followed, and five more states. Thomas Jordan, chief of staff to Gen. Beau-

throp, to whom he became attached. 'Tho bught to come from northern men, and latter was disabled by an accident, went to men whose party standing was a guarbis home and turned parish doctor. Mr. Davis became in time a politician. Lieut, Northrop grew so eccentric and full of mental crotchets as to be generally regarded in Charleston as of unsound intellect and unfit for the management of his own small affairs. He had not served long enough in the army nequire familiarity with military administration; pelther had his avocation in Charleston brought him in relation with men engaged n large commercial affairs. This man, with whom Davis had no personal association since they were cavalry licutenants together on the ndiau frontier, he did not hesitate to make his chief of subsistence, nor scruple to intrust with the organization and administration of a burean upon which the very existence of the Confederate armies unset depend, and for the labors of which it is apparent the soundest practical order of intellect was essential. It would be easy to find Confederates of high rank and approved judgment in military affairs who still look upon this appointment and two others as the main causes of the downfall of the Confederacy. WHO FORESAW A LONG WAR!

As to the other charge so persistently nrged, that Mr. Davis was "not able to compre hend the proportions of the struggle impending," the obvious answer is, Who was! A few, a very few, thoughtful men in the north, who drew their conclusions largely from history, predicted a long and bitter struggle; in the south it is exceedingly doubtful if there were fifty men who believed the contest would outlast a year. If there was one who, from the beginning, anticipated a four years' war, he succeeded admirably in con his views. That President Davis, his cabinet and all his ndvisers shared the current delu sion that the war would be short and its theatro confined principally to the coast and the border between the two sections, is certain. Such belief was the parent of many errors. In the first place, it was estimated that the sonth had almost arms enough, and the first order sent to Europe was for but 10,000 Enfield rifies! Before the blockade could be made effective it was nrged that the Confederate government should take the cotton and toco, of which a large stock was still on hand, issue bonds to pay the owners, export the stuff to Europe, and make it the basis of a fund to draw upon. The owners generally were willing, and the effect would have been tremendous. At the same time a considerahle amount of foreign exchange in the banks was offered to the government on favorable terms. Both propositions were rejected or ignored, and the golden opportunity soon passed, never to return. It should be noted also that the legislation of the provisional congress, and of the first session of the regugress at Richmond, shows the same lack of perception as to the greatness of the ending struggle.

On the Federal side of the line much of the froth and nonsense about "a short war" was swept away by the battle of Bull Run; the rest was done for at Shiloh. After the latter thoughtful men both north and south made np their minds that the issue was to be tenaclously fought to a close. The north erred often in expecting great and decisive victories: the south quite as often in expecting foreign interference or a division in the north. True, Mr. Benjamin at Richmond continued to do so, but he found few echoes. AN APPALLING DIFFICULTY.

The aggregate receipts from all sources for the service of the secretary of the treasury for the fiscal year relatio

expenditures, including the slaking fund, were \$22,570,920,25. The excess of receipts over expenditures was, after providing for the sinking fund, \$57,470,120,59.

"For the current fiscal year the total revenues, actual and estimated, are \$385,000,000, and the ordinary expenditures, actual and estimated, are \$203,000,000, making, with the sinking fund, a total expenditure of \$34,321,116,90, leaving an estimated surplus of \$34,367,883.01.

"During the fiscal year there was applied to the purchase of bonds in addition to those for the sinking fund, \$40,456,172.35, and during the first quarter of the current year the sum of \$37,883,907.00, all of which were credited to the sinking fund. The revenues for the fiscal year ending June 30, 1891 are estimated by the treasury department at \$335,000,000 and the expenditures for the same period, including the sinking fund, at \$341,490,477.70. This shows an estimated surplus for that year of \$43,560,522.30, which is more likely to be increased than reduced when the actual transactions are written up.

Inn. Colombus Delaco Denonnees the "Free Wool" Policy. WASHINGTON, Dec. 6 .- At the Nagrowers of the United States was ap-pointed. Judge Lawrence, of Ohio delivered an address upon the subject of wood growing in the United States. The feature of the meeting was the annual address of Hon. Columbus Delano, of Olio, president of the National Wool Growers' association. He began by sav-ing that both food and clothing should

be produced at home, not purchased from abroad, when the people who con-sume them have facilities for their proluction. Necessity alone can justify heir importation. Continuing, he said: "Suppose the nation involved in a war, foreign or domestic, of serious dimensions, like that, for example, of the late rebellion; sup use our commerce embarrassed, as as at that time; suppose our demand for wool no greater than it then was and suppose that free trade had de troved sheep industry and turned ove o foreign nations the production of our wool; and we may be able to appreciate the folly, if not the crime, of attempting
